Subject: Notice in Accordance with Section 8(e): Results of an Acute Oral Screening Study in Wistar Rats with [REDACTED]

Dear Sir/Madam:

[REDACTED] is submitting results of an Acute Oral Screening Study in Wistar Rats with [REDACTED], conducted by [REDACTED] (Non-GLP Study). The substance is an experimental pesticide.

The study was performed to assess the acute toxicity following oral administration in Wistar rats.

Single doses of 300 and 50 mg/kg body weight of test-item preparations in 1% CMC-solution in drinking water were given to fasted female Wistar rats each by gavage.

The following table shows the incidences of lethality at the offered dose levels within 1 day after administration:

Test Item	Dose level (mg/kg body weight)	Animals tested	Lethality
	300	3	3
	50	3	3

Under the condition of the above-mentioned study, the median lethal dose of the test item after single oral administration was found to be less than 50 mg/kg body weight in Wistar rats.
